GRADUATE SCHOOL EXPOSITION

For the first time this year, as a service to prospective graduate students and to graduate schools, there will be a Graduate School Exposition from 1:30pm until 4:30pm in Franklin Hall A on Thursday, April 6. Each of the 30 grad schools represented will have a table tended by faculty who will be able to talk to prospective students. Individuals who would like to attend the Expo but are not registered for the meeting will be given special Expo badges for free at a special line in On-site Registration on Thursday, April 6. These badges are valid for entry to the Grad School Expo only.

LOST & FOUND

The Philadelphia Marriott has a Lost and Found area overseen by the Loss Prevention Department. The in-house extension for Lost and Found is 6107.

MEET THE EDITORS

"Meet the Editors" makes its debut at this Annual Meeting. To be held on Saturday, April 8, from 8 am to 11:30 am, this informal session will be hosted by the editors of *American Antiquity*, *Latin American Antiquity*, and the *SAA Bulletin* and is the ideal opportunity for potential authors to ask questions about publication in SAA's periodicals.

MESSAGE CENTER

A self-service message center will be open outside Franklin Hall B on Wednesday from 2 to 8 pm, Thursday through Saturday from 7 am to 6 pm, and Sunday from 7 am to noon. Tickets for the luncheon (\$9.25) and breakfast (\$5) and details on topics and moderators are located at the On-Site Registration desk. *Hurry!* Roundtable lunch tickets will be sold until only 4pm on Wednesday and COSWA Breakfast tickets will be sold until 12pm on Friday.

Meeting participants who registered in advance for a roundtable luncheon/breakfast will find tickets in their registration packets.

SAA BOOTH

The SAA Booth is bigger and better than before! Stop by to browse sample publications, shop the complete line of SAA gear (the official line of SAA merchandise) and pick up the latest information on your SAA member benefits. Not yet a member? We'll be happy to sign you up on the spot. New member welcome packets are ready and waiting!

SILENT AUCTION

Visit the Native American Scholarships Committee (NASC) booth (#506) in the SAA Exhibit Hall to place your bids on some "great stuff" while contributing to a worthy cause. The Native American Scholarship Fund fosters a new sense of shared purpose and positive interaction between the archaeological and Native American communities.

How does the silent auction work? First, sign up for a bidder number at the NASC booth. Then, when you see something you want, decide how much you'd like to spend and write your bid and bidder number on the bid sheet. Of course, once others see your bid, they might decide to make an offer as well. So you'll have to stop by the booth from time to time to see if your bid is still the highest. If not, raise it and keep on trying. The bidding ends on Saturday at noon.

SMOKING POLICY

Smoking in meeting rooms is prohibited.

SPEAKER READY ROOM AND SLIDE SCREENING

For presenters who wish to check their slides before presentation, 35mm slide viewers will be available in the slide screening area located in 308. Presenters must provide their own carousel trays. The slide screening booths will be open on Wednesday from 2 to 8 pm, Thursday from 7 am to 10 pm, Friday and Saturday from 7 am to 6 pm, and Sunday from 7 am to noon.

STUDENT, NEW MEMBER, FIRST-TIMER, & COMMITTEE WELCOME RECEPTION

Students, new members, members attending their first Annual Meeting, and all SAA committee members are invited to a reception on Wednesday evening from 9 to 10 pm in Salon G. The society's Board of Directors, as host, will provide a drink ticket for those registered for the reception; it may be exchanged for a soft drink or applied toward the purchase of an alcoholic beverage. Meeting participants who registered in

advance for this reception will find the drink ticket in their registration packets.

SYMPOSIA AND SESSION CHAIRS

Please maintain the established schedule in fairness to persons planning to attend particular presentations; please pause for the period allotted in the program if a scheduled speaker fails to appear. Please note that this year there are back-to-back sessions assigned to the same room. It is very important that all session chairs end on their scheduled times.

Featured Sessions

OPENING SESSION

The past 100 years have been an exciting time for archaeology, with significant institutional, empirical, methodological, and theoretical advances. Through a historical perspective, key elements of disciplinary progress in each of these domains are highlighted. With an eye to avoiding the all-too-common patterns of overreaction and dichotomous thinking of the past century, thoughtful retrospection and synthesis will attempt to forge and focus future disciplinary activity. This session is organized by T. D. Price and G. Feinman, and features as participants W. Ashmore, R. Bettinger, C. Costin, G. Feinman, B. Hayden, L. Manzanilla, T. D. Price, J. A. Sabloff, K. Schick, B. Smith, and N. Toth. The opening session is scheduled for 7 pm Wednesday evening in Salons E/F.

CELEBRATE ARCHAEOLOGY 1999–2000 BY USING YOUR BALLOT!

This year again your registration package includes a ballot for the Archaeology Week/Month Poster Contest. Visit the Franklin Hall A (where the poster sessions are; the hall next to the Exhibit Hall) display of these colorful advertisements for archaeology, beginning on Thursday morning. Use your ballot to vote for the one you like best. The ballot box is located near the poster display. The balloting will close at 12 pm on Friday, and the prizes will be awarded at the Annual Business Meeting and Awards Celebration at 5 pm on Friday. This is the fourth year the poster contest has been sponsored by the Public Education Committee and the Council of Affiliated Societies.

ELECTRONIC SYMPOSIUM

"Digital Data: Preservation and Re-Use" sponsored by the Archaeological Data Archive Project and organized by H. Eiteljorg is a symposium that features a different format than others; papers of the participants were available on the World Wide Web prior to the Annual Meeting so that attendees were able to read the papers before the meeting. Through

this process, there will be more time for in-depth discussion of the issues, for no papers will be read during the session. This symposium is scheduled for Thursday 3:00pm in Salon F. This electronic symposium format will be included as a new option for submissions for the 66th Annual Meeting in New Orleans in 2001.

PUBLICATIONS FORUM— ONE SAA JOURNAL OR TWO: A DIALOG WITH THE MEMBERSHIP

The SAA Board is considering merging its two journals, *American Antiquity* and *Latin American Antiquity*, into a single consolidated journal (*American Antiquity*). This forum, organized and chaired by Kenneth Ames (SAA Board of Directors) and Christopher Chippindale (Publications Committee), is an opportunity for members to ask questions, to express opinions, and to comment on the proposal, so the SAA Board can take full note of members' views.

In order to address concerns raised by both Latin American and North American members, the SAA Board is considering merging *American Antiquity* and *Latin American Antiquity* into a single consolidated journal.

Although both journals are successful as they stand, 'One journal or two?' has remained a disputed issue over the 10 years since *Latin American Antiquity* was founded. The key question is whether the interests of our readers (primarily, our members) and our authors are better served by a single larger journal with coverage of all of the Americas or by the continuation of the separate journals. In the following paragraphs, the proposal under consideration is described and major advantages and disadvantages are noted.

In the plan under consideration, starting in January 2001, the combined journal would be published six times a year and would have about as many pages as the present separate journals taken together. The combined journal would be a member benefit for all categories of membership (including regular and student members) that currently receive a journal—with no increase in dues. Subscribers to both

journals would receive the content equivalent of both journals without subscribing to a second journal. Articles in the combined journal could be published in any of the languages now published in *Latin American Antiquity*. Steeply discounted dues and institutional subscription rates would remain for Latin American and other discount-rate countries. To maintain regional balance and share the work load, the journal would have both senior editor (or senior co-editor team) and junior editor (or junior co-editor team) roles filled alternately by Latin Americanists and by North Americanists. The Latin Americanist role would generally be filled by a co-editor team of the sort that *Latin American Antiquity* has had in recent years (composed of a Latin American scholar and a North American scholar who is a Latin Americanist). Each editor or co-editor team would have a term of three years with the senior and junior terms offset by a year and a half. Each editor or co-editor team would fill the junior role for the first half of their term and the senior role for the second half. These editorial arrangements are intended to keep a continuing balance between the two interests.

An advantage of the proposal is that most North Americanists and Latin Americanists would gain a greater exposure to a more diverse archaeological community, both in terms of areal coverage and international perspectives. (Only about 15% subscribe to

both.) Latin Americanist authors would gain more visibility for their work because of the considerably larger individual and institutional circulation of *American Antiquity*. A combined journal could help bring archaeologists together, rather than encouraging fragmentation of the archaeological community at a time when we face increasing common threats to the archaeological record.

Subscribers to both journals would save by not having to pay for a second journal; costs to other members would remain unchanged.

Arguments against the proposal include the observation that *Latin American Antiquity* has been a major tool in building important bridges between SAA and Latin America and that eliminating the journal could be seen as withdrawing from that commitment. There is a concern that even with the best of intentions, the editor arrangements could change and the interests of Latin Americans and Latin Americanists could be compromised.

Conversely, North Americanists could worry that North American articles could get pushed out by Latin American articles. With a combined journal, some North Americanists and Latin Americanists will certainly object that they get too much content that is not relevant to their interests. Finally, even if dues are not raised, this change would entail a modest cost to SAA.

This forum is scheduled on Friday from 11:30 am–12:30 pm in Salon E.

A Word about the Sessions

The sessions that make up the bulk of the program fall within four categories:

Forum—An interactive format organized around a tightly focused theme. Formal presentations are kept to a minimum to encourage discussion between presenters and audience.

General Session—Consists of Posters, Contributed Papers (15 minutes), or Research Reports (15 minutes), each submitted individually by its author(s). Presentations are grouped together by the program chair around a particular theme, usually geographic or methodological. Session chairs are designated by the program chair.

Symposium—Generally, a group of 15-minute presentations on a well-defined theme submitted together by an organizer. The organizer may or may not also chair the symposium. Also includes poster presentations submitted as a group and organized around a single theme.

Workshop—An instructional format designed to convey a specific set of skills or ideas.

Any of these sessions may be “sponsored” and/or “invited.” The designation “sponsored” indicates the support an SAA committee, or an organization outside SAA. The designation “invited” reflects a special status and role within the meeting, as defined by the Program Committee Chair. All sponsored and invited sessions are subject to review by the Program Committee, as are all other submissions, and are subject to the three-role rule. Because numerous committees wish to sponsor sessions, the Program Committee must balance such requests with other program goals; as a result, in some circumstances, requests for sponsored sessions may be rejected. The only exceptions to the review process and three-role rule are the opening and plenary sessions.

Vikings The North Atlantic Saga

Edited by
William W. Fitzhugh
and Elisabeth I. Ward

Replete with illustrations, *Vikings* explores the Viking saga from the combined perspectives of archaeology, history, oral tradition, literature, and natural science. Drawing on recent research, more than thirty leading scholars chart the spread of marauders and traders in Europe as well as the expansion of farmers and explorers throughout the North Atlantic, showing that Norse contacts with Native American groups were more extensive than has previously been believed.
