Meeting Safety Policy and Code of Conduct at SAA Events

I. Principles

Background

This policy ("Policy") defines a code of conduct for attendees of the SAA Annual Meeting and other SAA events and mandates response to incidents of misconduct in activities sponsored by the SAA. This Policy will be reviewed and updated, as needed, every three years unless events and situations necessitate earlier action.

Everyone is entitled to a safe and harassment-free experience when participating in SAA activities. The SAA understands that participation at its events is an important part of career development and affirms the values of respect, equity, multicultural pluralism, and nondiscrimination at these gatherings. Harassment harms the individual. Harassment also damages the SAA community by discouraging participation in SAA events and compromising the exchange of ideas that is at the center of the SAA's mission to promote and stimulate interest and research in the archaeology of the Americas and beyond.

Because of the importance of the meeting to career development and concerns at the Society about inclusion of marginalized groups in the Society's events, the SAA has elected in this Policy to give priority to survivors of harassment and assault and to ensure their ability to participate freely in SAA events.

Scope

This policy applies to all meeting attendees at the SAA Annual Meeting and any SAA events, which includes the conference rooms and organized sessions of the SAA, workshops, excursions, receptions, webinars, and SAA committee, task force, and interest group meetings.² Although reportable incidents are **not** limited to those occurring at the Annual Meeting and SAA events, any expulsions or restrictions are limited to areas under SAA control. For example, the SAA can bar or exclude an individual from conference sessions, exposition halls, SAA meetings, or social events; however, the SAA's ability to restrict individuals from spaces accessible to the general public is limited.

Attendee Health and Safety

When any event participant discloses or reports an incident of misconduct, the SAA's first immediate priority will be the health, safety, and well-being of the attendee. Except in emergency situations, where the venue policy and procedure take precedence, the SAA Executive Director and SAA President, in consultation with legal counsel and hotel/convention center security, will determine whether the involvement of local law enforcement is necessary or prudent.

II. Code of Conduct

SAA meeting participants involved in SAA activities and events are expected to conform to the principles and provisions of this policy and to the SAA Principles of Archaeological Ethics.

² SAA committee, task force, and interest group meetings take place in various venues; the Policy will apply, regardless of venue, for all committee, task force, and interest group meetings that are formally convened. The Policy will not apply to SAA events that are open to the public.

The following behaviors are prohibited at the SAA Annual Meeting and SAA events:

- Harassment of any kind, including sexual harassment, sexual assault, and coercion
- Physical or verbal abuse, including bullying
- Unwelcome comments and/or exclusionary behaviors related to an individual's age, sex, gender identity and expression, perceived sexual identity, appearance or body size, military status, ethnicity, individual lifestyle, marital status, sexual orientation, physical or cognitive abilities, political affiliation, race, religion, or nationality
- Intimidation, stalking, or following

Any attendee who is required by their employer or by a legal process to refrain from certain behaviors or from contact with certain individuals is expected to adhere to those restrictions while participating in all SAA activities. Violation of employer requirements and/or legal restrictions will constitute a violation of this Code of Conduct if disclosed or reported.

Prohibition against Retaliation

Retaliation is when someone penalizes another person for

- Reporting, or expressing an intent to report, what the person believes in good faith to be assault, harassment, or any conduct prohibited by the SAA as stated herein
- Assisting another in reporting assault or harassment, or any conduct prohibited by the SAA
- Participating in any SAA inquiry, review, or investigation pertaining to misconduct
- Having previously reported assault, harassment, or misconduct, and/or having participated in an inquiry, review, or investigation, whether the potential violation occurred at SAA or elsewhere

SAA strictly prohibits retaliation to ensure that SAA event participants feel comfortable coming forward with their concerns without fear of reprisal. Any person who engages in retaliation in violation of this Policy will be subject to barring or expulsion from SAA events, possible termination of membership, or other disciplinary action.

III. Ombuds at the SAA Annual Meeting

Section III on the selection and role of the Ombuds is available online at the complete policy: <https://www.saa.org/annual-meeting/submissions/anti-harassment-policy>

To read about and meet the 2020 Ombuds, please go to page 9.

IV. Disclosure and Reporting at the SAA Annual Meeting

SAA encourages reporting of any conduct in violation of the Code of Conduct in Section II above, regardless of the identity of the offender. While SAA encourages individuals to firmly and promptly notify the offender that the behavior is unwelcome, SAA also recognizes that power and status disparities between the offender and the recipient of the offensive conduct may make such a confrontation problematic. Consequently, such direct communication is **not** a requirement or prerequisite for filing a complaint.

Ombuds Visit

Any meeting attendee may reach out to the SAA Meeting Ombuds. This is an independent, informal, and confidential process that enables attendees to discuss any matter of discomfort or distress. The topic of concern may have occurred at an SAA event or

elsewhere, or at any point in the past. Connecting with the Ombuds does not require identifying the individual against whom the report is being made ("Subject Individual"³) nor naming the Attendee to the Subject Individual(s) or to the SAA.

Ombuds visits are intended to explore creatively the range of legal, institutional, policy, and personal options and to discuss with the visitor benefits and disadvantages in order to help the individual identify solution(s) that best support them.

While high-level data about the overall categories and types of issues will be shared with the Board by the Ombuds (in the interest of improving the meeting in the future), the Ombuds will adhere to their obligation of confidentiality (unless the individual consents to disclosure), and no specific or identifying information will be shared with the SAA.

Visiting an Ombuds is not mutually exclusive with other processes (e.g., disclosure or report.)

Disclosure and Report

Any SAA member or participant at the SAA Annual Meeting ("Attendee") may submit a disclosure or a report (as defined below) to the SAA President or Executive Director. Reports and disclosures can be made orally or in writing. There may be circumstances, particularly with Reports, where an oral report may need some written documentation. The SAA President and Executive Director will be the primary point of contact for the Attendee. Attendees may report incidents with or without identifying the Subject Individual. For purposes of this Policy, the following definitions shall apply:

Disclosure (hereinafter "Disclosure" or "Disclosures") occurs when an Attendee notifies the SAA of a violation of the Code of Conduct or other misconduct and requests assistance from the SAA to enable the Attendee's continued safe participation in SAA activities. The violation may have occurred at an SAA event or elsewhere, or at any point in the past. Disclosure does not require further investigation or identifying the Subject Individual(s). Disclosure does not require naming the Attendee to the Subject Individual(s). A Disclosure may be made to the SAA President or Executive Director.

The Attendee's identity shall remain anonymous, unless the Attendee elects to be identified.

In cases where a Disclosure is made without identification of the Subject Individual, actions that may be taken will be limited to making accommodations for the Attendee, such as arranging for escorts to, from, and during SAA events at the Annual Meeting.

Reporting (hereinafter "Report" or "Reports") occurs when an Attendee notifies the SAA of a violation of the Code of Conduct, and requests that the SAA review the matter and take action against the Subject Individual to enable the Attendee's continued safe participation in SAA activities. A Report may be made to the SAA President or Executive Director.

Reporting requires that an Attendee identify the Subject Individual. A Report will require a description of the alleged incident of misconduct from

³ For the purposes of this Policy, "Subject Individual" refers to anyone against whom a report is being made, regardless of SAA membership status.

the Attendee and may be strengthened by statements from any witnesses to the incident.

The SAA President and Executive Director may provide the Subject Individual with a description of the incident and request a timely response. The SAA President and Executive Director will reiterate the non-retaliation provision of the Code of Conduct to the Subject Individual.

Disclosures and Reports under this Policy may be made orally or in writing. To assist Attendees, a form for submission of a written Disclosure or Report is attached to this Policy as **Appendix A**, and all Attendees are encouraged to use this form. The Attendee may designate a third party to represent them when submitting a Disclosure or Report, provided the third party can present written proof or confirmation of such designation to ensure such third party is authorized to speak on the Attendee's behalf (e.g., signed letter/affidavit). Individuals who are submitting Reports on behalf of other SAA members or individuals should use the form and note that it is on another person's behalf.

Role of the Ombuds

Attendees who submit a Disclosure or Report will be encouraged to speak with the SAA Ombuds at the Annual Meeting as well. The Ombuds will explore with the Attendee ways to stay safe and ways to participate as fully as possible in the meeting. If a formal report has not been submitted by the Attendee (in cases where a Disclosure has been made), the Ombuds may discuss the option of filing a Report with the SAA as outlined in this Policy; a complaint with the Subject Individuals' employing institution or local law enforcement; or a grievance with the Register of Professional Archaeologists or another adjudicating body; along with exploring local, institutional, legal, and interpersonal options.

The Ombuds may, if appropriate, mediate or otherwise assist the Attendee and Subject Individual in reaching a resolution, particularly in cases of misunderstandings, if the parties agree to that process.

Actions

THE SAA PRESIDENT AND EXECUTIVE DIRECTOR, IN CONSULTATION WITH SAA LEGAL COUNSEL, SHALL BE EMPOWERED WITH THE DISCRETION TO TAKE ACTION AT THE SAA ANNUAL MEETING.

Actions may include, but are not restricted to, the following:

- Providing access to escorts to, from, and during events for the Attendee
- Removing the Subject Individual from the Annual Meeting
- Requiring the Subject Individual to modify and/or restrict his or her behavior and activity at the SAA Annual Meeting
- Other reasonable steps, consistent with the nature of the alleged misconduct

The SAA President and Executive Director will complete a written memo, summarizing the facts obtained and the resolution. The Attendee and Subject Individual will receive a copy. **There may be circumstances in which identities shall be left out or redacted from the memo.**

The SAA President and Executive Director shall be responsible for prompt updating to the Attendee about the actions taken. The SAA President and Executive Director will be responsible for notifying the Subject Individual about actions the SAA is taking.

The SAA President and Executive Director's memo shall be sent to the Findings Verification Committee referenced in Section V below for further review and determination of whether or not the Subject Individual should be barred from future SAA Annual Meetings or events.

Sections disclosing and reporting prior to the meeting, privacy and education and communication are all available online at: <https://www.saa.org/annual-meeting/submissions/anti-harassment-policy>

PRESIDENTIAL RECOGNITION AWARD

Recipient: Paul Reed

We proudly present the Presidential Recognition Award to Paul Reed of Archaeology Southwest for his work in helping protect the Greater Chaco Area. During the last six years, Reed has been working to protect the Greater Chaco Landscape from the effects of expanded oil-gas development associated with fracking in the Mancos Shale formation to protect sites, traditional cultural places, and fragile landscapes in the greater San Juan Basin. Last year, Paul provided testimony on behalf of the SAA and other organizations at a field hearing on the impacts of oil and gas development in northwest New Mexico to the House Subcommittee on Energy and Mineral Resources.

PRESIDENTIAL RECOGNITION AWARD

Recipients: Jeff Altschul and Keith Kintigh

We proudly present this award to Jeff Altschul and Keith Kintigh of the Coalition for Archaeological Synthesis for their continued work in calling attention to the utility of archaeological data to help answer contemporary questions. Last year, Altschul and Kintigh convened a synthetic project on human migration impacts at the Amerind Foundation, gathering together individuals from a variety of backgrounds to look at ways that the archaeological record can provide answers to issues brought about by human migration.

PRESIDENTIAL RECOGNITION AWARD

Recipients: Kelley Hays-Gilpin and Meagan Thies-Sauder

We proudly present this award to Kelley Hays-Gilpin and Meagan Thies-Sauder for their work as co-chairs of the Task Force on Sexual and Anti-Harassment Policies and Procedures. Hays-Gilpin and Sauder assembled a group of hardworking volunteers and guided their efforts to review the SAA's previous policies on sexual and anti-harassment and to create SAAs Meeting Safety Policy and Code of Conduct at SAA meetings.

GENE S. STUART AWARD

Recipient: Lizzie Wade

Lizzie Wade has earned the SAA Gene S. Stewart Award for her excellence in journalism and her outstanding efforts to enhance public understanding of archaeology. Ms. Wade has written an interesting and responsible original story that appeared in *Sciemag.org* in November 2019 entitled, "Unearthing the Reality of Slavery." This article sheds light on archaeological excavations in the Virgin Islands and how findings have led to new narratives surrounding enslaved Africans forced to migrate there in the eighteenth and nineteenth centuries. It is an important contribution to science communication of archaeology and social justice and it is with great honor that we present this award to Ms. Wade. This award is given in the memory of Gene S. Stewart (1930–1993), a writer and managing editor of National Geographic Society books.

DIENJE KENYON FELLOWSHIP**Recipient:** Christine A. Mikeska

Christine Mikeska is the recipient of this year's Dienje Kenyon Memorial Fellowship. Christine received her BA from Boston University and is currently pursuing her MA and PhD at the University of North Carolina. Hittite urban, religious, and state institutions are understood to be entangled with both domestic and wild fauna, without which these institutions and the individuals who maintain and depend on them would break down. In order to explore patterns of animal provisioning and herd management within various institutions at the Bronze Age Hittite Capital of Hattuša, zooarchaeological analysis of taxonomic composition demographic profiles, skeletal-part frequencies, and biometrics will be undertaken. In addition, strontium isotopic composition of domestic and wild animals will be compared to geological terranes across Anatolia in order to identify patterns of landscape use within animal husbandry, and provisioning decisions associated with both wild and exotic fauna.

FRED PLOG MEMORIAL FELLOWSHIP**Recipients:** Emily Kate and Christopher Schwartz

Emily Kate and Christopher Schwartz will share the Fred Plog Memorial Fellowship in support of their promising dissertation research. Ms. Kate's work uses isotope analysis to evaluate the presence of immigrants, and changes in the frequency of immigration over time, in Epiclassic settlements in Hidalgo. Her project both offers a case study in the interaction of diverse populations in a period of sociopolitical stress and evaluates long-held theories about the rise of Tula Grande as an expansionist state. Mr. Schwartz's research explores the significance of scarlet macaws at major regional centers in the U.S. Southwest and Northern Mexico, using isotope analysis to address the birds' origins and examining the relationship of macaws to other exotic and local objects in archaeological contexts. His work will shed light on the local ritual and political impacts of long-distance interaction.

PAUL GOLDBERG AWARD**Recipient:** Denay Grund

For her project reconstructing the geomorphic, hydrologic, and archaeological history of Painters Flat, California, toward elucidation of the Great Basin's Paleoindian record, we proudly present the 2020 Paul Goldberg Award for master's research in Earth science and archaeology to Denay Grund (University of Nevada-Reno).

DOUGLAS C. KELLOGG AWARD FOR GEOARCHAEOLOGICAL RESEARCH**Recipient:** A. J. White

For his project integrating fecal stanol analysis with traditional geoarchaeological paleoenvironmental analyses toward discerning the relationship between climate, human populations, and the origins of sedentism in the Epipaleolithic of eastern Jordan, we proudly present the 2020 Douglas Kellogg Fellowship for doctoral research in Earth science and archaeology to A. J. White (University of California-Berkeley).

SAA/INSTITUTE FOR FIELD RESEARCH UNDERGRADUATE STUDENT TRAVEL AWARDS**Recipients:** Iris Jacobs, Kathryn Kuennen, Laura Pott

DISSERTATION AWARD**Recipients:** Sara Oas and Saul Hedquist

Sarah Oas offers a rigorous investigation of transformations in cuisine and commensality during the late Puebloan periods of the American Southwest. These changes accompany a dramatic settlement reorganization, marked by aggregation and nucleation in the Cibola (Zuni) region. She artfully integrates a large body of diverse data to reconstruct interrelated foodways such as production, storage, preparation, cooking, consumption, and discard. Dr. Oas assesses paleoethnobotanical remains, faunal bone, ground stone tools, hearth and storage features, and ceramic attributes, employing innovative and emulation-worthy methodologies. Her work is further informed by a robust consideration of historical accounts of the 1800s and her fieldwork with Zuni cooks and farmers to garner contemporary, local perspectives on culinary traditions. The adoption of flatbreads, along with increasing importance of feasting, essential to maintaining large community cohesion, resulted in heavier household labor burdens on women. Dr. Oas reveals that social transformation was experienced differently by individual members of society. (Arizona State University)

Saul Hedquist addresses the complex entanglement of turquoise production, exchange, and meaning in the western Puebloan region, employing a broad array of methods. He traces the acquisition strategies of multiple sites using strontium and lead isotope analysis to identify turquoise sources. The dissertation offers a comprehensive classification of turquoise objects and stylistic and morphological attributes and a detailed contextual analysis of the spatial associations of turquoise. This work also analyzes related blue objects such as painted staffs, wands, disks, baskets, and animal bones. Dr. Hedquist determines how turquoise ownership or production reflected key aspects of social identity. He also reconstructs production (and reuse or recycling) trajectories, and his interviews of Hopi and Zuni cultural leaders, including artists and jewelers, aid his inferences about past turquoise production and meaning. This effort illustrates his inclusionary, multivocal approach to research, as well as his commitment to assist with tribal efforts of heritage preservation. (University of Arizona)

CHARLES STANISH SAA ANNUAL MEETING TRAVEL AWARD (EL PREMIO ANUAL CHARLES STANISH PARA ASISTIR A LA REUNIÓN ANUAL DE LA SAA)**Recipient:** Carlos Osores Mendives**H. AND T. KING GRANT FOR PRECOLUMBIAN ARCHAEOLOGY****Recipient:** Forthcoming**BOOK AWARD: SCHOLARLY****Recipient:** Christine A. Hastorf*The Social Archaeology of Food: Thinking about Eating from Prehistory to the Present*

Food has emerged as a major topic for social scientists across all periods in human history to the present day. This richly detailed book presents a thought-provoking approach to an archaeology of food and social life, centered on five themes: materiality, social agency, the senses, economics, and taste. Christine Hastorf effectively utilizes the archaeological, ethnohistoric, and ethnographic record to illustrate how food was not merely economic—not just sustenance—but richly embedded in culture and society. The global comparative use of case studies of all things food, from production and material culture to consumption, taste, cuisines, power, and identity highlights the central role of the meal. This book's wide

ranging and well-integrated analyses and conceptual framework are useful and appealing to diverse scholars. As food is omnipresent, all archaeologists can find something to think about and apply to their own research.

BOOK AWARD: POPULAR**Recipient:** Carl M. Davis*Six Hundred Generations: An Archaeological History of Montana*

Carl Davis presents a fascinating journey through Montana's long human history by describing how Native Americans lived, evolved, and flourished in Montana for thousands of years. Using the site as a locus of interpretation and history, Davis takes us from the Pleistocene to the reservation era, in chronological order, by highlighting incredible finds that showcase the diversity of ancient lifeways. The text is accompanied by a rich array of photographs and numerous well-done artworks by illustrator Eric S. Carlson. Written for the nonspecialist to learn the stories of antiquity in the state, Davis deftly interweaves facts, theories, and methods that bring to life Montana's past. This solid introduction to the archaeology of Montana serves as a model publication for archaeologists who want to translate research-speak for the general public.

AWARD FOR EXCELLENCE IN ARCHAEOLOGICAL ANALYSIS**Recipient:** Rafael Alejandro Pastrana Cruz

Rafael Alejandro Pastrana Cruz has earned the SAA's Excellence in Archaeological Analysis Award for his pioneering and enduring contributions to lithic studies in Mesoamerica. Dr. Pastrana's decades-long research program at the Sierra de Las Navajas (or "Pachuca") obsidian source has made it one of the best documented lithic quarries in the world. The research has involved the detailed mapping and excavation of obsidian flows, prehispanic and colonial period mines, and the campsites of miners and lithic craftspeople who worked at the site over its millennia of occupation. Pastrana's research methods involve experimental archaeology in conjunction with lithic specialists, students, and members of the local community who produce obsidian products for the tourist economy. He has also overseen research at other Mesoamerican quarries and on a broad range of Latin American lithic industries. Pastrana has guided multiple generations of students and fostered the continuation of experimentally based lithic studies in the Americas.

AWARD FOR EXCELLENCE IN CULTURAL RESOURCE MANAGEMENT**Recipient:** J. Stephen Athens

Dr. Athens is the founder and general manager of International Archaeological Research Institute Inc. (IARI), a nonprofit corporation that has provided research, historic preservation, and compliance services to a variety of clients for over 30 years. He is also the senior manager and founder of International Archaeology (IA), an LLC owned by IARI and created in 2014 to better serve clients requiring compliance services. His work has focused on Pacific Islands paleoenvironments and archaeology. He has published over 50 international peer-reviewed book chapters and articles in the disciplines' most respected venues including *American Antiquity*, *Antiquity*, and *Current Anthropology*. Many of his publications are derived from cultural resource management projects and thus he has added significant research value to both public and private cultural resources. Dr. Athens' archaeological research and stewardship of archaeological and cultural resources ensures

that the invaluable archaeological record of the Pacific Islands will be available into the future.

AWARD FOR EXCELLENCE IN LATIN AMERICAN AND CARIBBEAN ARCHAEOLOGY

Recipient: Elizabeth ("Liz") Graham

Dr. Elizabeth ("Liz") Graham is an inspiring woman who works tirelessly to advance the field of Mesoamerican archaeology, and she is an individual for whom numerous people have great admiration. Liz has accomplished a great deal in her professional career as a Mesoamerican archaeologist, and she has done it with warmth, kindness, and generosity of spirit. Aside from her own impressive professional and intellectual achievements, she has mentored scores of individuals including students, avocational archaeologists, and tour guides, and she continuously shares her archaeological and cultural insights with members of the general public through a variety of public outreach approaches. For these reasons, her Award for Excellence in Latin American and Caribbean Archaeology is richly deserved.

AWARD FOR EXCELLENCE IN PUBLIC EDUCATION

Recipient: Heiltsuk First Nation

The Heiltsuk (Hał̬zaqv) First Nation is awarded the Award for Excellence in Public Education for its creation of an exceptional community-guided website: "Húyat: Our Voices our Land" (www.hauyat.ca). The project is exemplary as throughout the process of creating this website, the Heiltsuk had a central role in the management of their cultural heritage and dissemination of the information with others. They have produced a truly outstanding project that brings to life the archaeological, ethnoecological, and ethnographic data about the eco-cultural history of Húyat through compelling videos, photos, stories, and graphics. The website does a tremendous job of transporting the user to an important cultural landscape, making this remote location accessible for both the Heiltsuk community to (re)connect to their cultural heritage and as an educational tool for the general public.

CRABTREE AWARD

Recipient: Marilyn Markel

Marilyn Markel has a deep passion for archaeology and has spearheaded efforts in the Mimbres Valley, New Mexico, to preserve archaeological sites and educate young people of all ages on the value of the archaeological past. She has made significant contributions to our understanding and preservation of Mimbres sites in New Mexico, through over 20 years of volunteer work on university field school excavations, promotion of site protection through stewardship, transforming the local artifact-collecting community into an avocational/professional archaeological society, and educating schoolchildren about the value of archaeological heritage. Ms. Markel has assisted archaeological field schools, preserved sites, published children's books on archaeology, and created a center devoted to the preservation and interpretation of Mimbres archaeology through educational outreach. Marilyn Markel is highly deserving of the Crabtree Award for her exemplary service to enhancing the preservation and public appreciation of New Mexico's archaeological past.

THE FRYXELL AWARD FOR INTERDISCIPLINARY RESEARCH

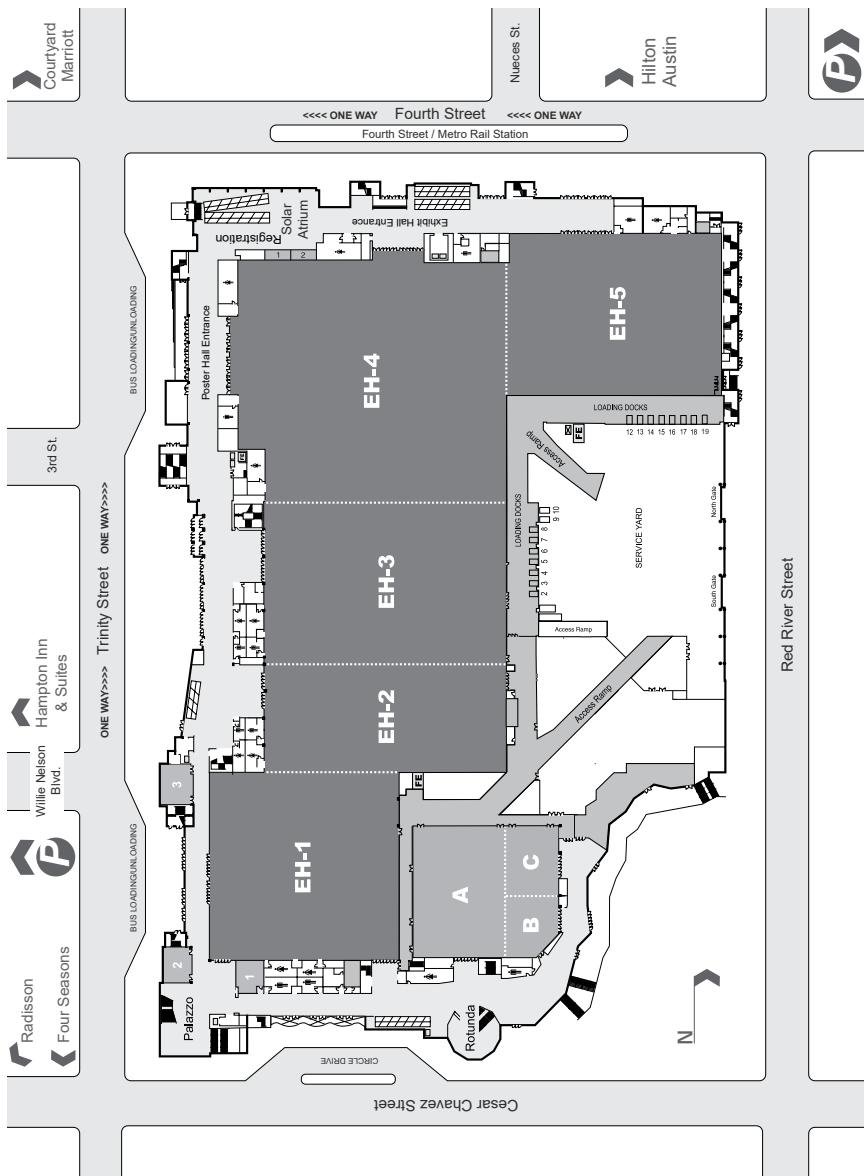

Recipient: Debra Martin

Debra Martin has earned the SAA's Fryxell Award for Interdisciplinary Research for her scholarship and mentoring of a new generation of bioarchaeologists. Dr. Martin has

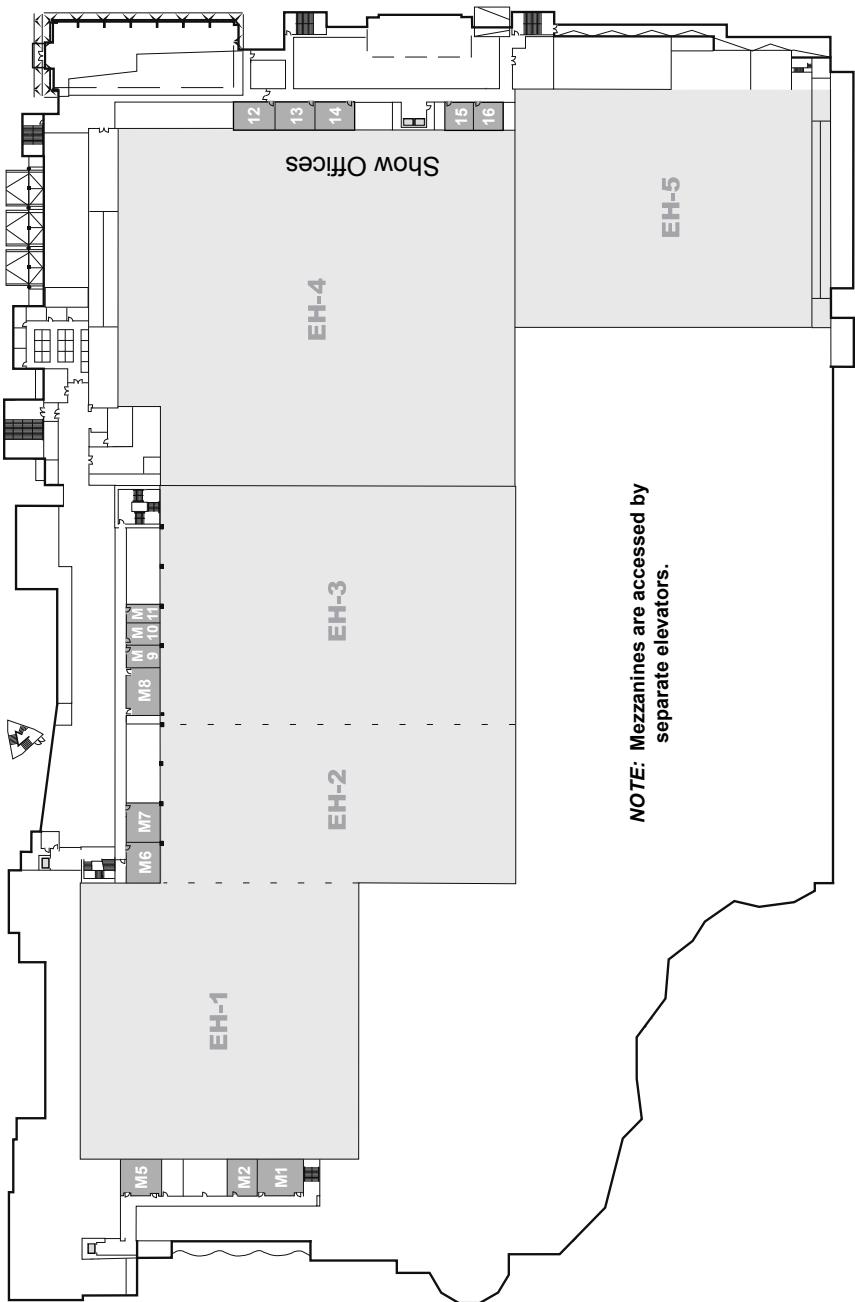

focused on topics such as violence and inequality, gender difference and paleopathology, and the bioarchaeology of human experience, especially with an emphasis on peoples living in challenging environments. She has accomplished this within a broader interdisciplinary perspective that easily meets the spirit of the Fryxell Award. Dr. Martin also has emphasized the importance of theory in her research and has tirelessly trained a broad range of students. She has published numerous important works, many in conjunction with her students, and these have added new perspectives on bioarchaeology within a broader cultural context. She has also played major service roles to the profession. Her career is a model for what it means to do interdisciplinary research.

LIFETIME ACHIEVEMENT AWARD**Recipient:** Larry J. Zimmerman

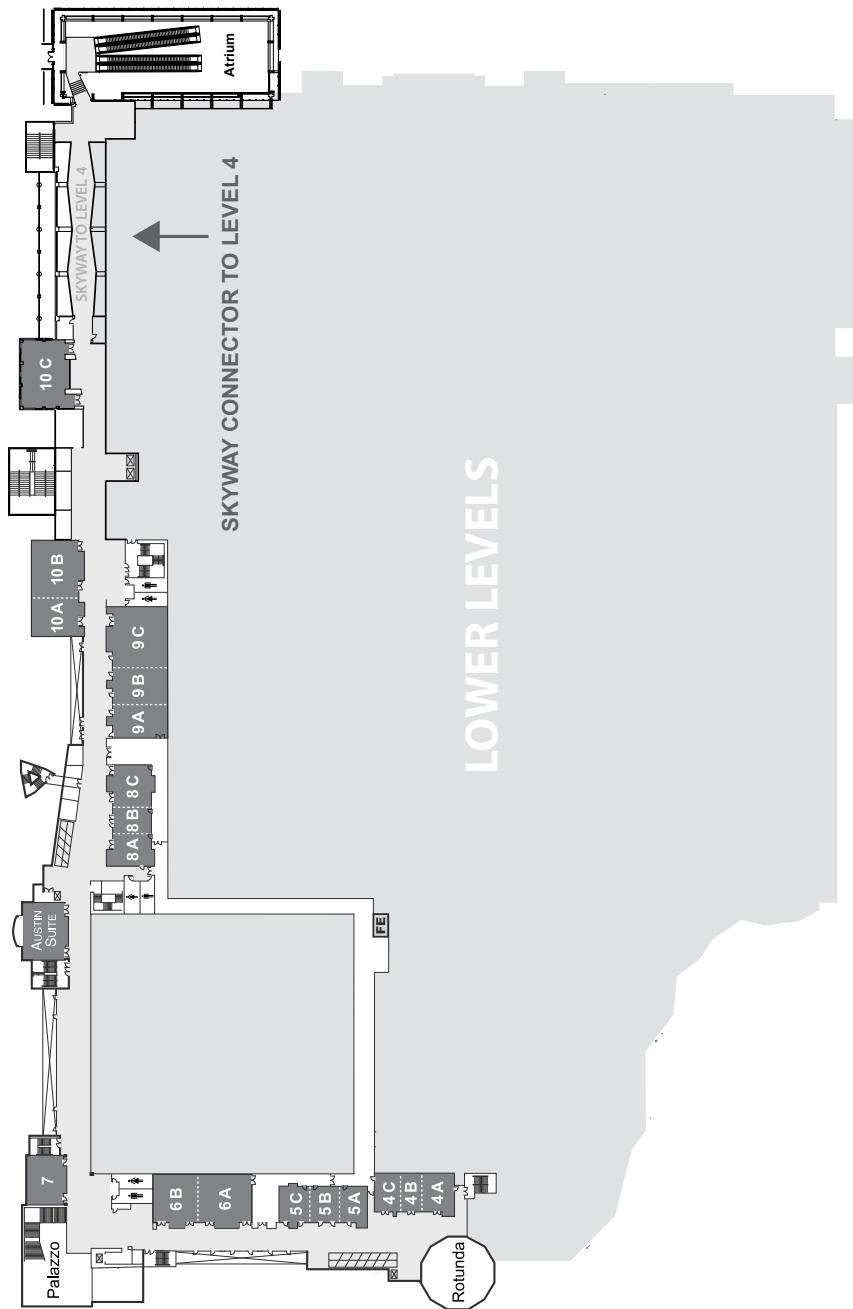

Larry. J. Zimmerman has earned the SAA's Lifetime Achievement Award for his scholarship, prolific publications, teaching, service to the profession, leadership and advocacy for inclusivity, diversity, and equity in the field, and especially for his groundbreaking leadership in furthering the cause of Indigenous Archaeology. Over a nearly four-decade-long career, Dr. Zimmerman has been one of the most articulate, thoughtful, and influential advocates for indigenous archaeologists throughout the world, championing a radically new relationship between archaeologists and the peoples they study. That position embraces indigenous peoples as research partners and places their interests at the heart of archaeological scholarship. He also has been a pioneer in the archaeology of homelessness. He has been active leader in the WAC and the SAA, including his service on the Ethics Committee and the Committee on Public Policy, as well as playing a key role in establishing the Native American Scholarship Fund.

Featured Sessions

Opening Session/President's Forum

Title: What Is at Stake? The Impacts of Inequity and Harassment on the Practice of Archaeology
Organizer: Amber VanDerwarker and Maureen Meyers
Date: Wednesday, April 22
Time: 6:30 p.m.–8:30 p.m.
Location: Ballroom D (ACC)

Abstract: Research and reporting on equity and harassment in the academy and across various fields in both public and private sectors reveals the extent of chronic inequalities and significant problematic behaviors in various workplace settings. Groups most negatively affected by these inequities and often illegal behaviors are women, the LGBTQ+ community, and underrepresented racial and ethnic groups. For archaeologists, workplace settings include many locales (offices, labs, classrooms, field sites, conferences) and thus many potential sites for inequity, harassment, and assault to occur. To be clear, this is broad disciplinary issue affecting the very performance of archaeology. In addressing this looming and serious problem, this session brings together a wide range of practicing students and professionals to consider: (1) equity (e.g., gender pay gap, publication/citation practices) and (2) sexual harassment and assault (e.g., as experienced and perpetrated by different subgroups, effects on professional outcomes, effective training/reporting, resources for survivors). Wherever possible, presenters discuss recommendations at several scales (e.g., individuals, workplaces, field settings, conferences). We hope that highlighting these issues at the forefront of our annual meeting will make evident that inequity and harassment affects all practitioners and open a dialogue on these issues that continues throughout and beyond the conference itself.

Title: Ethics Should Concern Everyone: Soliciting Membership Feedback on

Updating the Principles of Archaeological Ethics

Organizer: Ethics Revision Task Force II

Date: Thursday, April 23

Time: 6:00 p.m.–8:00 p.m.

Location: Ballroom E (ACC)

Abstract: The second SAA Ethics Revisions Task Force is charged with collecting input and feedback from SAA membership and stakeholder groups on existing ethical principles. This forum will provide a preliminary update on results from the 2019 membership survey and also solicit more member feedback on the SAA Principles of Archaeological Ethics. Organizers will present a brief overview of available survey results and then ask the audience to participate with their ideas, questions, and concerns. Discourse from this forum will be documented and included in the task force report used to guide revisions to the Ethical Principles.

Ethics Bowl

Date: Thursday, April 23

Time: 1:00 p.m.–3:00 p.m.

Location: Room 406 (H)

The Ethics Bowl, which debuted at the 2004 meeting, is a festive, debate-style competition that explores the ethics of archaeological practice.

Ethics Bowl Discussion Forum

Title: Archaeological Ethics in the Past, Present, and Future: Lessons from the SAA Ethics Bowl

Organizers: Katherine L. Chiou,

Patricia G. Markert, and Daniel M. Perez

Time: 3:00 p.m.–4:00 p.m.

Location: 406 (H)

Abstract: This year, the SAA Committee on Ethics, the Register of Professional Archaeologists, and the Task Force on the Revisions of the SAA Principles of Archaeological Ethics II invite practicing and professional archaeologists to take part in the discussion. Join us after the final round of the 2020 Ethics Bowl for a forum led by former contestants, judges, and supporters to discuss lessons learned from the SAA Ethics Bowl through the

years. The forum will be a conversation during which archaeologists of all sectors can confer on past, current, and future trends in the ethics of our discipline. We will address the challenges of navigating ethics in practice as well as ideas about what role our core ethical principles may play in today's changing world. It will also be an opportunity to celebrate the outstanding achievements of the student teams.

Posters After Hours

Date: Thursday, April 11, 2019

Time: 5:00 p.m.–7:00 p.m.

Location: Exhibit Hall 4—Trinity St. Entrance (ACC)

This session will feature 100 posters. With a relaxed atmosphere and a cash bar, this session serves as the perfect venue to connect with colleagues and discuss current research.

Late Addition!

Title: Agents of Change: Creating Space for Building a Safe Community
Organizer: Intersectionality Task Force

Date: Thursday April 23

Time: 7:30 p.m.–10:30 p.m.

Location: Salon D (H)

Abstract Events from this past year remind us that the long-standing historical problems within our discipline remain present. The Albuquerque meeting drew an undeniable level of attention to these issues and created disruption that must be attended to, even by those intent on maintaining the status quo, the same people who have benefited from oppressive structures. As members of the SAA, willing to engage directly, we have new opportunities to contribute to the healing of a discipline along with other professional organizations and individuals.

Since 2016, SAA members (e.g., Thies and Jones 2016; Thakar and DeLeon 2019) have facilitated organized sessions around #MeToo, sexual

harassment, assault, and interpersonal/interprofessional violence. This work recognizes a general lack of belonging and safety for nondominant identities within our professional organization (e.g., LGBTQI2S, members of color, Native members, etc.). This session centers voices of those who have experienced and/or been impacted within, and by, our shared discipline. We seek a way to move through and forward by creating community through conversation, sharing, and mutual care as a way to transform our discipline into an inclusive and equitable science in all its applications, from consulting to classroom, field to lab, collaboration to conferences.

We invite members of our SAA community to participate in healing conversations and mutual care so that we contribute to a better future for our discipline. Join us in supporting each other in solidarity and allyship, listening to stories from our members, and maybe sharing your own stories that unsettle or challenge the historical narratives and practices that continue to haunt us.

Stories can include artistic production, speaking, or readings that speak radical truth and resistance to marginalization and violence. How can we use our intersectional voices and identities to affect change? We look to build community and healing while recognizing and creating moments of personal and interdisciplinary transformation in the spaces of archaeology.

Follow-up Event

Information on Session Formats

The sessions that make up the bulk of the program fall within seven categories:

General Session—Consists of Posters and Contributed Papers (15 minutes), each submitted individually by its author(s). Presentations are grouped together by the program chair around a particular theme, usually geographic or methodological. Session chairs are designated by the Program Committee chair.

Symposium—A group of 15-minute presentations on a well-defined theme submitted together by a chair. Also includes poster presentations submitted as a group and organized around a single theme.

Poster Session—Consists of a group of posters. Posters are especially encouraged and are particularly effective for presentations communicating quantitative data. All poster sessions are two hours in duration.

Electronic Symposium—A discussion format in which the organizer posts the papers on the web at least one month before the meeting. No papers are read at electronic symposium as it is assumed that attendees will have read the material beforehand. Generally a few minutes' summary of the papers are the introduction to the two-hour discussion session.

Forum—An interactive format organized around a tightly focused theme. Formal presentations are kept to a minimum to encourage discussion between presenters and audience. Forums are two hours.

Debate—A format designed to encourage debate and discussion of current issues. A debate consists of a moderator and discussants representing at least two different perspectives. No papers are listed with the session. Debate sessions may have no fewer than four discussants and no more than six discussants. Debates are two hours long.

Lightning Rounds—Analogous to a forum format (there will be a moderator, perhaps a co-moderator, and discussants). Each Lightning Round will be organized around a topic or an area. The second hour will be for discussion in groups with individual presenters or discussion with the group as a whole. Each Lightning Round will be two hours long with the first hour consisting of three-minute presentations (with three slides maximum; 10–15 discussants).

Any of these sessions are open to all registered attendees. Sessions may be “sponsored” and/or “invited.” The designation “sponsored” indicates the support of an SAA committee or interest group, or an organization outside SAA. The designation “invited” reflects a special status and role within the meeting, as defined by the Program Committee chair.

All sponsored and invited sessions are subject to review by the Program Committee, as are all other submissions, and are subject to the three-role rule. Because numerous groups wish to sponsor sessions, the Program Committee must balance such requests with other program goals; as a result, in some circumstances, requests for sponsored sessions may be rejected. The only exceptions to the review process and three-role rule are the opening and plenary sessions.

Join Us at Posters After Hours!

This poster session will feature 100 posters. With a relaxed atmosphere and a cash bar, this session serves as the perfect venue to connect with colleagues and discuss current research.

CHERYL L. WASE MEMORIAL SCHOLARSHIP
Archaeologist Cheryl L. Wase spent most of her career working in the high deserts of New Mexico. She died at the too-young age of 53 in 2004. When her mother, Jane Francy Wase, passed away in 2013, she left a bequest to the Society for American Archaeology to endow a memorial scholarship in her daughter's name. This generous memorial bequest brings together three major themes that defined Cheryl Wase's life: her dedication to archaeology, her love for New Mexico, and her constant willingness to help and support other women. The Wase Scholarship offers continuing support to eligible students. Listed below are each year's new recipients.

Perspectives on Early Andean Civilization in Peru *Interaction, Authority, and Socioeconomic Organization during the First and Second Millennia BC*

234 pages, 6.75 x 9.75 inches

ISBN 9780913516300

\$35.00 Paper

The twelve contributions to this edited volume, which incorporate the activities of three academic centers—the Universidad Nacional Mayor de San Marcos, the University of Tokyo, and Yale University—aim to understand the nature of the organization of specific societies from the available evidence rather than concentrate on idealized cultural stages. Informed by their own active investigations in the field, the authors approach this challenging subject by examining in detail different bodies of evidence to address larger anthropological questions, especially those dealing with sociopolitical organization, inequality, and power.
